Man's Inner Journey

As men we seem to have lost the connection with ourselves - with what we really want. We have been taught to be strong and invulnerable and yet inside every one of us lays a passionate, powerful, feeling and intuitive man.

The Man's Inner Journey seminar is a time to focus on yourself, gain inner peace and give new power and wholeness to your life and to all your relationships.

It is about rediscovering your strengths, your self worth and the truth of who you are. Man's Inner Journey is for any man of any age, any career who is seeking to understand more of himself.

During the seminar you will explore:

- Relationships with women, children, your father and your work associates
- Energy you never knew you had
- Your strengths and weaknesses
- Your personal power and courage
- How to look with new eyes at your sexuality
- How your birth actually affects your personality
- How behaviour patterns of the past have set up your future and how to change them
- How to honour, heal and forgive your past, empower your present and celebrate your future.

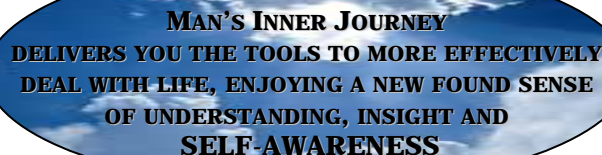

Man's Inner Journey

IN THE PAST MEN HAD AN IDENTITY THAT BOTH MEN AND WOMEN ACKNOWLEDGED AND VALUED. NOW THAT IS DISAPPEARING. THE MALE POSITION IN SOCIETY HAS BECOME MORE AND MORE DIFFICULT TO IDENTIFY. THE RULES HAVE CHANGED AND MEN ARE UNDERGOING THE CONSEQUENCES OF A MAJOR SOCIAL UPEHAVAL.

Ask Yourself:

- Was your father an excellent role model? A father who gave you unconditional love and respect simply for being you?
 - Most men right up until their death want to be recognised and acknowledged by their father, but it rarely happens.
- Have you had a relationship that didn't quite work out the way you expected it to?
 - Statistics show that up to 50% of marriages end in divorce.
- Do you work in an area that doesn't bring you the satisfaction you were led to believe it would?
 - Statistics suggest that most men dislike the job they are in.
